PERENNIALS AND BIENNIALS

Perennials have increased greatly in popularity and in attempting to keep up with the demand, we have added new varieties to our list as fast as we have found them adaptable to Wisconsin conditions. We have grown increasingly large quantities until we now grow many thousands each year.

The plants quoted are all strong, transplanted stock of sufficient age and strength to bloom the first year.

* designates rock plants.

Heights given are of plants when in bloom.

These prices include delivery and our usual guarantee, except when requested dug out of season.

Special prices will be made on large quantities, or without delivery or guarantee.

Three of one variety will be sold at 10's rate.

An extra charge will be made for plants selected and staked when in bloom or dug with ball of earth:
